Coinsurance amount paid by the Insured		
Prescription Drugs – coverage is subject to all Policy guidelines. A Generic drug must be used whenever a Generic equivalent is available. If a Brand drug is purchased instead of a Generic equivalent, the Insured is responsible for the price difference. Prescription Drugs that are not purchased through the Prescription Drug card plan will be paid in accordance with the Prescription Drug card plan benefit and not as major medical benefits. They will also be limited to the maximum allowable cost, less any available discounts, that would have been available had the drugs been purchased through the Prescription Drug card plan.		

An Insured's contribution to any coinsurance, deductible or out-of-pocket amount shall include any cost sharing amounts paid by either the Insured or another person on behalf of the Insured for a prescription drug that is either: 1) without a generic equivalent; or 2) with a generic equivalent where the Insured obtained access to the prescription drug through any of the following: a) prior authorization; or b) the exception and appeals process of the insurer.

• Generic Drugs	20% or \$10, whichever is greater (not subject to Deductible)*
• Brand Drugs	30% or \$30, whichever is greater (after Deductible)*

*The coinsurance amount paid by the Insured for patient-administered cancer treatment medications, including medications that are orally-administered or self-injected, will be 10%, (not subject to Deductible) for generic drugs and 10% (after Deductible) for brand drugs. Copayment amounts do not apply to those types of medications.
